## Decorative Coloured Glass **SSG® DuraHue**

Chong Tong Construction, Singapore

SSG® DuraHue is a high performance coated decorative glass product which retains the dazzling effect of glass while bringing out the best aesthetic qualities in colours. Virtually any colour can be formulated in tinted or reflective options to add that special touch to your interior or architectural design.

SSG® DuraHue increases your choices of fully coloured glass, ideal for use on second surfaces for interior designs. When adapted in clear or reflective options, SSG® DuraHue adds shimmering jewel-like

effects to create prestige for your designs and applications. It can be used in hotels, restaurants and galleries for an elegant and sleek finish. SSG® DuraHue can be annealed, heat-strengthened, or tempered. There are infinite ways to construct or retrofit your designs with SSG® DuraHue!

### **SPECIFICATIONS :** **Production Sizes**
